# Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated)

Ronald L. Geren

**Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated)** Ronald L. Geren

**No other resource—not even the building code—presents the exact code information you need, when you need it at design stage**

The International Building Code (IBC) is a model building code developed by the International Code Council (ICC). The IBC and its complementary codes provide design and construction professionals with a complete set of comprehensive, coordinated building safety and fire prevention regulations in order to safeguard the public health and general welfare of the occupants of new and existing buildings and structures. Adopted throughout most of the United States and its territories, it is referenced by federal agencies, such as the General Services Administration, National Park Service, Department of State, U.S. Forest Service, and the Department of Defense. For architects and other design and construction professionals, it is particularly important that they understand how to apply the IBC and how code officials view buildings, so that they integrate code-required provisions in the earliest design stages of any project.

Applying the IBC, as well as its companion codes, to building design is a process that is uniquely different to that of applying the building code during a planning review. Whereas other guide books explain the IBC in sequential order, from cover to cover, chapter by chapter, and section by section, *Applying the Building Code* explains the requirements of the IBC as they would apply during the common phases of design: from schematic design through to the preparation of construction documents. This effectively highlights applicable requirements of the building code at the appropriate stage of design based on available information.

- The book provides a 28-step process that is organized according to the three phases of architectural design: schematic design, design development, and construction documents
- Each step explains the application of the IBC, as well as other codes and standards referenced by the IBC (i.e. International Fire Code, International Energy Conservation Code, and ANSI A117.1) based on available project information
- Illustrations and examples are provided throughout that explain the code fundamentals associated with each step
- A single example project is used throughout the step-by-step process to illustrate how each step is applied and builds upon code and project information obtained through previous steps
- Guidance is also provided on the International Existing Building Code and how the step-by-step process is applied to projects involving existing buildings
- The role of the building department and its staff in regard to plan reviews and code enforcement is discussed
- A detailed code data information template is provided that can help organize code-related information for construction documents

### **From reader reviews:**

#### **Shirley Raine:**

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each book has different aim or even goal; it means that guide has different type. Some people experience enjoy to spend their time for you to read a book. They may be reading whatever they get because their hobby is reading a book. Think about the person who don't like reading through a book? Sometime, man or woman feel need book when they found difficult problem or perhaps exercise. Well, probably you will need this Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated).

#### **Ardith Bobo:**

The book Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated) make you feel enjoy for your spare time. You can use to make your capable more increase. Book can to get your best friend when you getting pressure or having big problem with the subject. If you can make reading through a book Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated) to get your habit, you can get more advantages, like add your own capable, increase your knowledge about many or all subjects. You may know everything if you like wide open and read a reserve Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated). Kinds of book are several. It means that, science reserve or encyclopedia or other individuals. So , how do you think about this publication?

#### **James Martin:**

Reading a publication tends to be new life style with this era globalization. With reading you can get a lot of information which will give you benefit in your life. With book everyone in this world could share their idea. Guides can also inspire a lot of people. Lots of author can inspire their very own reader with their story or perhaps their experience. Not only the storyplot that share in the ebooks. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors on earth always try to improve their proficiency in writing, they also doing some analysis before they write for their book. One of them is this Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated).

#### **Gregory Medina:**

You can spend your free time you just read this book this reserve. This Applying the Building Code: Step-by-Step Guidance for Design and Building Professionals (Building Codes Illustrated) is simple bringing you can read it in the playground, in the beach, train along with soon. If you did not possess much space to bring typically the printed book, you can buy the e-book. It is make you quicker to read it. You can save the book

in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.
