Dire Emotions and Lethal Behaviours: Eclipse of the Life Instinct Charles Stewart

Dire Emotions and Lethal Behaviours explores the primary motivational system in human beings. Based on the work of C. G. Jung, James Hillman, Louis Stewart and Silvan Tomkins, Charles Stewart investigates the psychology of the innate affects, with a focus towards the emotional motivation of adolescents and young adults who have killed others, themselves, or both.

It is suggested that social isolation, dissociation of the personality, unbearable emotions, and possession by affects are necessary conditions for both homicide and suicide. Stewart argues that these conditions result from deep-seated emotional psychopathology which involves both the positive affects of the life instinct - Interest and Joy, and the crisis affects - Fear, Anguish, Anger, and Shame/Contempt.

Illustrated throughout with case studies of individuals who have committed homicide, suicide, or both, *Dire Emotions and Lethal Behaviours* aims to discover the emotional motivations for such behaviours so that through education and psychological treatment, such tragic outcomes can be prevented. This book will be of interest to professionals and students in the fields of mental health and criminal justice.
