Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series Gorka Eizmendi

In the 21st century Assistive Technology (AT) should be defined as a scientific and technologic approach to the development of products and services oriented to support the elderly and people with disabilities in their daily activities, maximizing their personal autonomy, independence, health and quality of life. The AT field should bring this theoretical definition to reality more than ever, in order to counteract one of the main challenges that advanced societies will face during the coming years; the population aging. During the past few years, AT has developed quickly, mainly because of the technological revolution. There are better solutions now than there were 20, 10 or 5 years ago. And furthermore we foresee solutions that were unimaginable a few years ago, such as neuroprosthetics for urinary control in people with spinal cord injury or the cochlear implant for people with hearing impairments. This development is evident in high tech products (e-health, computer-based systems) and also in traditional products such as the wheelchair. The five main challenges identified by AAATE are New Technologies; Socio-Economic Issues, Universal design and its engagement with Assistive Technology, Evidence-based Practice and Aging and disability.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

- Biomedicine
- Oncology
- Artificial intelligence
- Databases and information systems
- Maritime engineering
- Nanotechnology
- Geoengineering
- All aspects of physics
- E-governance
- E-commerce
- The knowledge economy
- Urban studies
- Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

From reader reviews:

Mary McKay:

The book Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series can give more knowledge and information about everything you want. Exactly why must we leave a very important thing like a book Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series? Some of you have a different opinion about publication. But one aim which book can give many data for us. It is absolutely proper. Right now, try to closer along with your book. Knowledge or data that you take for that, you can give for each other; you could share all of these. Book Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series has simple shape nevertheless, you know: it has great and large function for you. You can appear the enormous world by start and read a reserve. So it is very wonderful.

Julie Ross:

Book is to be different for every single grade. Book for children until eventually adult are different content. As it is known to us that book is very important for all of us. The book Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series has been making you to know about other expertise and of course you can take more information. It is very advantages for you. The reserve Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series is not only giving you far more new information but also being your friend when you truly feel bored. You can spend your personal spend time to read your reserve. Try to make relationship using the book Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series. You never sense lose out for everything when you read some books.

Juan Crowe:

The book untitled Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series contain a lot of information on it. The writer explains your ex idea with easy technique. The language is very easy to understand all the people, so do not worry, you can easy to read the item. The book was written by famous author. The author will take you in the new era of literary works. You can easily read this book because you can please read on your smart phone, or model, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site and also order it. Have a nice study.

Nicole Powell:

As we know that book is vital thing to add our information for everything. By a e-book we can know everything we really wish for. A book is a group of written, printed, illustrated or maybe blank sheet. Every year had been exactly added. This publication Challenges for Assistive Technology: AAATE 2007, Volume 20 Assistive Technology Research Series was filled with regards to science. Spend your extra time to add

your knowledge about your research competence. Some people has several feel when they reading the book. If you know how big benefit from a book, you can experience enjoy to read a guide. In the modern era like right now, many ways to get book that you simply wanted.
