Monopolistic mega-corporations control all basic resources and items that world citizens depend on for their daily survival-not just food, resource-goods, or medicine, but also things like water, information, transportation, education, and even consciousness. Each of these corporations is controlled by tiny numbers of unelected, militaristic, fascistic labor-lords-called corporatists-who are outside of media attention and who exercise their power to such an extent that they will do anything-including obliterate and destroy the spirit and consciousness of citizens worldwide (including children). This book is an existential, empirical, economic, and psychological study of how corporations dominate the globe to the point that humanity worldwide is reduced to little more than a crushed, defeated mob of uneducated, brainwashed, and tormented beings - who are often tricked into believing they are free, as is the case with middle and upper class Americans. The corporatists secretly control the governments and major control agencies of the world: the UN, the CIA the WTO, the WHO, the FDA, medical schools and universities, the Federal Reserve, the world's militaries, farming, mass media, and religions-and that is just a partial list. Corporatism: The Secret Government of the New World Order shows that corporatism is the real underlying issue from which literally all major human problems now and in the past derive from; and the other issues that people usually imagine are the real underlying causes of humanity's problems (the politicians, war, human nature, greed, religion, problems with parenting and the education system, etc.), are just symptoms of the real problem, which is corporatism. In this book, Professor Grupp proves that the United States is a corporatist nation no different in fact from the communist horror-states described in books such as Orwell's 1984. Corporatism shows that in the near future America will be a full-fledged prison nation that will ultimately merge into the corporatist global "prison planet" that Hitler was initially attempting to set up, and which is now called the New World Order.
