The MCCEE is one of the first of three exams for medical licensing in Canada. This exam tests the student's basic clinical knowledge and diagnostic skills. This series of review books aims to provide a thorough overview of the information that is most commonly tested on this exam. Unlike many other review materials, it focuses on providing the student with an understanding of the concepts, the diagnosis, and treatment, rather than trying to memorize an overwhelming amount of information that is usually not asked in the standard questions.
