Biology of Plants

Peter H. Raven, Ray F. Evert, Susan E. Eichhorn

Biology of Plants Peter H. Raven, Ray F. Evert, Susan E. Eichhorn

This introduction to botany has been revised and completely reorganized - from the molecular and cellular through the whole organism to the ecosystem. The authors emphasize the relationships between growth and development, and structure and function, within the all-pervading themes of evolution and ecology. Features of the 6th edition include: coverage of diversity informed by recent sequencing studies and cladistic analyses; inclusion of current advances due to molecular techniques and biotechnology; and new material on ethnobotany and medicinal plants. There are various supplements for this product.
