Memories of Ice: Book Three of The Malazan Book of the Fallen Steven Erikson

The ravaged continent of Genabackis has given birth to a terrifying new empire: the Pannion Domin. Like a tide of corrupted blood, it seethes across the land, devouring all. In its path stands an uneasy alliance: Onearm's army and Whiskeyjack's Bridgeburners alongside their enemies of old--the forces of the Warlord Caladan Brood, Anomander Rake and his Tiste Andii mages, and the Rhivi people of the plains.

But ancient undead clans are also gathering; the T'lan Imass have risen. For it would seem something altogether darker and more malign threatens this world. Rumors abound that the Crippled God is now unchained and intent on a terrible revenge.

Marking the return of many characters from *Gardens of the Moon* and introducing a host of remarkable new players, *Memories of Ice* is both a momentous new chapter in Steven Erikson's magnificent epic fantasy and a triumph of storytelling.
