Grant's Dissector (Tank, Grant's Dissector) 15th edition Patrick W. Tank PhD

Grant's Dissector walks students step by step through dissection procedures in the anatomy lab. Each chapter is consistently organized beginning with a brief study of surface anatomy followed by concise coverage of osteology, presenting important foundational structures that will aid in localization of soft tissue structures. Each dissection unit begins with a "Dissection Overview" providing a guide of what is to be accomplished during the dissection session. This is followed by "Dissection Instructions," with a logical sequence and numbered steps for the dissection. Each dissection concludes with a "Dissection Review" that presents a numbered lists of tasks illustrating the important features of the dissection and encouraging the synthesis of information.
