## Mount Sinai Expert Guides: Neurology

*Mount Sinai Expert Guides: Neurology* provides trainees in neurology with an extremely clinical and accessible handbook covering the major neurologic disorders and symptoms, their diagnosis and clinical management.

Perfect as a point-of-care resource on the hospital wards and also as a refresher for board exam preparation, the focus throughout is on providing rapid reference, essential information on each disorder to allow for quick, easy browsing and assimilation of the must-know information. All chapters follow a consistent template including the following features:

- An opening bottom-line/key points section
- Classification, pathogenesis and prevention of disorder
- Evidence-based diagnosis, including relevant algorithms, laboratory and imaging tests, and potential pitfalls when diagnosing a patient
- Disease management including commonly used medications with dosages, management algorithms and how to prevent complications
- How to manage special populations, ie, in pregnancy, children and the elderly
- The very latest evidence-based results, major society guidelines and key external sources to consult

In addition, the book comes with a companion website housing extra features such as case studies with related questions for self-assessment, key patient advice and ICD codes. Each guide also has its own mobile app available for purchase, allowing you rapid access to the key features wherever you may be.

If you're specialising in neurology and require concise, practical and clinical guidance from one of the world's leading institutions in this field, then this is the perfect book for you.

So there isn't any in reading a reserve especially this one. You can find actually looking for. It should be here for anyone. So , don't miss the item! Just read this e-book type for your better life along with knowledge.

#### **Ricardo Huddle:**

As a university student exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's internal or real their pastime. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that examining is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Mount Sinai Expert Guides: Neurology can make you really feel more interested to read.
