Psychiatry

Janis Cutler, Eric Marcus

Psychiatry Janis Cutler, Eric Marcus

Designed specifically for medical students, as well as other trainees in the health professions, including social workers, occupational therapists, and psychiatric residents, Psychiatry 2e is a dynamic introductory textbook in psychiatry. Ideally suited for first and second year medical students during their psychopathology course and third year medical students during their psychiatry clerkship, the material, including extensive tables, is presented in a clear, concise and practical manner perfect for exam preparation. The authors provide a thorough yet concise introduction to clinical psychiatry, focusing on basic clinical skills like recognition and assessment of psychiatric illness. Clinically relevant information is emphasized, including practical interviewing techniques.

Psychiatry 2e also uses case studies, DSM-IV guidelines, and extensive tables offset from the text to act as a comprehensive yet concise guide for the busy medical student studying for exams. In addition, the second edition includes a new chapter devoted to child and adolescent psychiatry and the authors have expanded their coverage of cultural and geriatric issues in psychiatry. A broader discussion of the psychotherapies is also included, in recognition of the increasing role that cognitive behavior therapy plays in the treatment of many psychiatric conditions. Written by two well-known Columbia University Professors who direct medical student education in psychiatry, the tone is balanced and practical, perfect for the medical student not specializing in psychiatry.

From reader reviews:

Dorothy Wild:

This Psychiatry are generally reliable for you who want to become a successful person, why. The reason of this Psychiatry can be one of the great books you must have will be giving you more than just simple studying food but feed you with information that probably will shock your before knowledge. This book is handy, you can bring it almost everywhere and whenever your conditions in e-book and printed people. Beside that this Psychiatry forcing you to have an enormous of experience for example rich vocabulary, giving you demo of critical thinking that we understand it useful in your day action. So , let's have it and revel in reading.

Antione Wilson:

Do you have something that you enjoy such as book? The publication lovers usually prefer to choose book like comic, small story and the biggest you are novel. Now, why not hoping Psychiatry that give your enjoyment preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the means for people to know world considerably better then how they react toward the world. It can't be claimed constantly that reading routine only for the geeky individual but for all of you who wants to always be success person. So , for all you who want to start looking at as your good habit, you could pick Psychiatry become your current starter.

Steven Kilgore:

As a scholar exactly feel bored in order to reading. If their teacher inquired them to go to the library or to make summary for some reserve, they are complained. Just little students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Psychiatry can make you truly feel more interested to read.

Frances Stone:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is created or printed or illustrated from each source this filled update of news. On this modern era like today, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just looking for the Psychiatry when you required it?
